

LIFE CYCLE ANNOUNCEMENT

ACS310 and ACS355

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Active
Full range of life cycle services and support

Classic
Limited range of life cycle services and support

Limited
Replacement and end-of-life services

Current life cycle status

ACS310 and ACS355 modules are in the Active life cycle phase according to the ABB life cycle model outlined above.

Life cycle plan

ACS310 and ACS355 modules will be transferred to the **Limited** life cycle phase 1.7.2024 and further to the Obsolete phase 31.12.2026.

Product availability in Limited phase

ACS310 and ACS355 modules sales will be ramped down in countries in specific ramp down waves according to the sales ramp down announcement outlining the process.

ACS310 and ACS355 modules will have limited availability in Limited phase. Please contact your local ABB for migration to latest generation equivalent products.

ABB regional distribution center in Singapore shall not have any availability for ACS310 and ACS355 in Limited phase.
